CRSI doctoral training and pre-conference workshops for the conference
Interactional Competences and Practices in a Second Language (ICOP-L2)*

Methodology workshops

Methodological issues in research on L2 interactional competences and practices

18 January 2017, University of Neuchâtel, Room 107, Faculty of Economics and Business, Rue A.–L. Breguet 2, 2000 Neuchâtel

General information
The workshops aim to provide hands-on training on methodological aspects of the analysis of second language (L2) competences and practices in naturally occurring data. The workshops specifically target those who are already to some extent familiar with micro-analytic research on social interaction, and who are interested in issues of learning and/or qualitative research methodology.

Program

09.00–09.15	Welcoming of participants; coffee
09.15–9.30	Introductory words
09.30–11.30	**Basic issues in longitudinal studies of social interactions** This workshop discusses methodological challenges and solutions for investigating interactional conduct over time. Presenter: Prof. Johannes Wagner (University of Southern Denmark)
11.30–13.00	Lunch
13.00–15.00	**Building collections** This workshop provides a theoretically grounded hands-on training for how to work with collections in research on interactional practices. Presenter: Dr. Evelyne Berger (University of Neuchâtel)
15.00–15.30	Coffee break
15.30–17.30	**Doing comparative research on L2 interactions** This workshop discusses methodological issues in comparative research on second language interactions across settings and/or languages. Presenters: Dr. Olcay Sert (Hacettepe University) and Dr. Adam Brandt (Newcastle University)
17.30–18.30	Networking reception

Registration
The workshops are limited to 25 participants and registration is on a first-come first-served basis. Participation is free for CRSI doctoral students. For all others, the registration fee is 50 CHF for the whole day; partial registration may be permitted if justified. Lunch, coffee and the networking reception is included in the registration. Please contact Klara Skogmyr Marian at klara.skogmyr@unine.ch to register.
